Office of the Dewan of Mysore,

NOTE.

Dated 13th October *1927.*

Recd 26-27

DEWAN'S OFFICE.
Received on
14 OCT. 1927
Dpl.
Reg. No. Secretariat No. 332

I shall be glad if the following points I noticed during my inspection of the Tuberculosis Sanatorium, Mysore, on the 13th instant, are attended to:-

1. The wire gauze used for the doors looks dirty and should, as already pointed out in my inspection notes of the 19th June 1927, be replaced by expanded metal.

2. The crevices in the ward rooms should be filled in so as not to harbour sparrows et

3. The X-Ray room requires to be darkened still more. This might be done by using ceiling boards to prevent light streaming through the tiled roof.

4. A combined tower and recreation hall may be built on the highest spot where the water tanks are now placed. Mr. Krumbiegel may be requested to give a suitable design. The Senior Surgeon may perhaps be able to enlist the sympathy of some charitably disposed person and induce him to provide the money required.

5. The linen room now adjoins the kitchen. Linen should be stored in one of the rooms in the other blocks to prevent their becoming dirty.

6. It is necessary to furnish patients with hints on how to take care of themselves when they return home after being discharged from the Sanatorium. Leaflets on the subject may be prepared in English and Kannada and distributed to all the patients.

309 3 17/10

Dewan.

[add the following:

(7) The buildings provided for the un & relatives of patients — should have electric lights.

(8) The Verandah behind the General ward may perhaps be protected by a small parapet wall (to be carried out by the J.S. who undertaking work).]

The General Secretary to Government,
with compliments.
